Hi all,

Attached are the slides with NOTES in the notes portion.

We did NOT write notes for Henry because he was so articulate off the cuff on Friday!

Sarah Grace will ensure the uploaded slides include Henry's higher resolution photo.

Any questions do let us know.

Below is a recap of this afternoon's call:

Opening: Slides 2 and 3-- Martha

- Welcome participants, note that all lines are muted, participants can type their questions in the Q&A box and they will be answered by the ECOS Moderator (Alex Dunn) at the end of the call-- she will get to as many questions as possible.
- Discuss 2.0 development
- Turn to Henry Darwin and note that he can only be on at the beginning of the call

Slide 3-- Henry

- Discuss Administrator's commitment to cooperative federalism, will make sure it is fulfilled

Slides 4 and 5-- Alex

Slides 6 and 7-- Todd

Slides 8 and 9-- Alex

Slides 10 and 11-- Todd

- Emphasize importance of staying informed, involvement of the regulated community

Slide 12-- Alex moderating questions from participants

Points to emphasize in notes:

- From Henry-- it would be helpful for Alex/Todd/Martha to say that this work has already begun-- we are not waiting for the future of cooperative federalism, this relationship has already started
- Both groups are embracing the process
- It is about improving processes-- it is not a wish list but how we work better together
- Strong EPA & Strong States
- Cyclic, opportunity to modernize/streamline
- Positive State-EPA tone throughout presentation

Webinar Instructions from Sarah Grace Longworth (ECOS):

I spoke with our webinar folks and we are all set. I am pre-assigning Todd/Martha/Henry to presenters so that they may enter the room early. All participants will be on standby mode until I open the room.

Todd/Martha/Henry/Alex/Rob/SG should use Carolyn's moderator password for the dial-in

**Personal Matters / Ex. 6**

All participants will use the participant code given to them upon logging into the webinar room, and will be in a mode in which they CANNOT unmute themselves. This way, we can still record but there will be no extra

noises or interruptions, and they will not be able to hear the presenters discuss/test the system in advance of the webinar.

I have the functions and will ensure that they are employed well before the conference begins.

The chat box is only visible to those I assign as presenters (Todd/Martha/Henry) and Alex/me as host. Alex can scan the questions and either assign them to Todd for answering or answer them herself.
