Rochester, N. Y.

Re: Vera Clemons, Deceased, Palmyra, N. Y.
vs: Garlock Packing Company, Palmyra, N. Y.

Gentlemen:

This 42 year-old, married woman entered the employ of the Garlock Company on May 20, 1918 and worked there steadily until July 3, 1928 in the textile room, operating a loom and a creel. She then returned to the same kind of work on September 17, 1928 and worked through June 29, 1929. She was then married and left the company's employ. She had three children. During her married life she is said to have gained weight and to have had some shortness of breath. On December 3, 1942 she again went to work for the Garlock Company, in the same department, and worked steadily until November 26, 1943. On this last date, she resigned "without any explanation".

On April 8, 1943, she was seen by Dr. Marsh of Palmyra, N. Y.; at this time she complained of pain in the chest, shortness of breath and cough. On May 15, 1943, her chest was x-rayed by the State Department of Health Clinic at Newark, N. Y. These films were examined by Drs. J. H. Green, E. G. Whipple, John MacMillan and me. Dr. Green reports on them as follows: There is infiltration involving the larger part of the right lung. The shadows are much denser near the hilum. There is a dense shadow in the left lung near the hilum. The two dense shadows largely obscure the heart shadow. No accurate measurements of the heart can be given. The leaves of the diaphragm are quite high. The right leaf of the diaphragm lies above the 8th posterior rib and the left leaf lies just below the 8th posterior rib. There are some areas of decreased density in the lungs, suggesting emphysema".

On June 5, 1943, she was again x-rayed by the State Department of Health, this time at Palmyra, N. Y. This film shows "changes similar to those described in the film of May 15, 1943. The dense shadows extending out near each hilum obscure the heart shadow. There is infiltration involving the larger part of the right lung. The leaves of the diaphragm are high".

The diagnosis, made by the State Department of Health on the above two films, was "pulmonary fibrosis".

On or about September 26, 1944, the patient was sent into the Genesee Hospital of Rochester, by Dr. Marsh; here, she was attended by Dr.

PLAINTIFF'S
EXHIBIT

6-54

Martin B. Lehman. On September 27, 1944, another chest film was taken at the hospital. This showed "infiltration of the lungs, as described in the two previous films. In addition, there is a pneumothorax pocket in the right pleural space, extending along the axillary border and over the apex, causing approximately 25% or 30% compression of the lung. The heart is apparently shifted slightly toward the left side. In addition to the infiltration described in both lungs in the previous films, there is a slight increase in the linear markings in the left lung, from the clavicle to the base". The patient died at the hospital on September 29, 1944.

Autopsy was done by Dr. M. W. Popoff, the hospital pathologist. He will forward a complete report of his findings, both gross and microscopic. The autopsy material was reviewed by Drs. Whipple, MacMillan and me. It establishes the conclusion that the patient died "as a result of pneumothorax. This pneumothorax was associated with extensive pulmonary fibrosis, with emphysematous blebs and emphysema. Sections of the lungs confirm the diagnosis of pulmonary fibrosis, resulting from prolonged contact with asbestos". It is Dr. Popoff's opinion that the asbestosis was "of long duration".

The advisability of making a chemical examination of the ashed lung was taken up with Dr. Leroy W. Gardner of the Edward L. Trudeau Foundation at Saranac Lake, N. Y. He wrote me: "I would much rather rely on a histological examination of large blocks of lung tissue made by a competent pathologist than I would expect results from chemical data. At best, the latter is only supporting evidence of any morphological changes that may be present. We have done it on a good many lungs that have proved to have asbestosis, but all one can do is to demonstrate that there may be abnormal quantities of magnesium. The silicates that are detected might readily be due to other inhaled materials". On the basis of the above, it was not thought necessary to have the lung ashed.

Conclusion: It is my opinion, in which Drs. Popoff, MacMillan and Whipple tell me they concur, that this woman died of a pneumothorax, associated with pulmonary fibrosis and asbestosis; that this process began at some time after she first went to work for the Garlock Packing Company and steadily progressed; that she was, clinically, an advanced case of asbestosis when she returned to work for the Garlock Company in December 1942, and that the process would undoubtedly have gone on to a fatal termination even if she had not worked during the period from December 1942 to November 1943.

Very truly yours,

/s/ M. J. Moskowitz, M. D.

WAGE STATEMENT

The basis of compensation under the New York Workers' Compensation Law is the average daily wage earned by the injured employee during the whole year or a substantial part of the year prior to the accident and in the same occupation. If the injured employee has not worked at the same work for a year or a substantial part thereof, then the rate is determined by taking the average of another employee of the same class who has worked the whole or a substantial part of each immediately preceding year at the same or similar employment. It is necessary, therefore, to show by weekly periods the number of days worked and the amounts earned (including all overtime) in each such period.

If the injured employee has worked a year or a substantial part of a year the form marked "A" should be used. If he has not worked for a year or a substantial part thereof and another employee has, then the form "B" should be used. In either case, the table following these forms should be carefully prepared and certified.

New York, 19

This is to certify that I, Mrs. Yvonne S. Clemons,

Packing Company

, NEW YORK

December 5, 1944

Mr. Ray Smith

Mrs. Ryder, Compensation Claims Agent, Lumbermen's Mutual Insurance Company, has asked for a wage statement for the above subject employee.

The factory records show that she was re-employed December 5, 1942 and resigned or was laid off November 25, 1943. They raise the question that possibly her wages might have been continued after that date. What the insurance company desires is the total wages earned by Mrs. Clements from December 5, 1942 until she was removed from our payroll.

You probably know that Mrs. Clements died in September 1944.

January 10, 1945

Mr. Geo. A. Ryder, Claim Adjuster
American Lumbermens Mutual Casualty Co.
of Illinois
Reynolds Arcade Bldg.
Rochester 4, N. Y.

Dear Mr. Ryder:

Responding to your telephone request to our Miss Governor, factory nurse, we give you below the record of the employment of the above subject party as shown on our records:

First employed - May 20, 1918
Resigned - July 31, 1928

Re-employed - Sept. 17, 1928
Resigned - June 29, 1929

Re-employed - Dec. 3, 1942
Resigned - Nov. 26, 1943

We trust the above will meet your requirements.

Very truly yours,

THE GARLOCK PACKING COMPANY

Assistant Secretary

HBP:VPC:10

The Garlock Packing Company

PALMYRA, NEW YORK

January 8, 1947

Mr. Charles W. Green, Attorney at Law,
Strang, Bodine, Wright & Condon,
800 Powers Building,
Rochester 4,
New York.

Re: Raymond E. Clemons as Limited Administrator
of the Estate of Vera E. Clemons, deceased
vs: Garlock Packing Company

Dear Mr. Green:

This letter will introduce Mr. James E. Alsdorf, Staff Attorney of our Company.

Mr. Alsdorf is taking up with Mr. Wilcox of Harris, Beach, Keating, Wilcox & Dale, the questions involved in the recent action brought by Mr. William L. Clay in the Clemons matter. In view of the foregoing, we will appreciate it if you will give Mr. Alsdorf a brief summary of the present status of the subject case which you are handling for us.

This letter will also serve as a reply to yours of January 2, and in accordance with your request, we enclose (American) Lumbermen's Mutual Casualty Company Workmen's Compensation Policy No. YC2,984,368 covering 1944; also Policy No. YC2,893,115 covering 1943. Although Mrs. Clemons died in 1944 she was last employed by our Company in 1943. Our record of her employment is as follows:

First employed	-	May 20, 1918
Resigned	-	July 31, 1928
Re-employed	-	Sept. 17, 1928
Resigned	-	June 29, 1929
Re-employed	-	Dec. 3, 1942
Resigned	-	Nov. 26, 1943

In next to the last paragraph of your letter of the 2nd you state that "Mr. Zurett has suggested that inasmuch as the (American) Lumbermen's Mutual Casualty Company has not afforded you coverage under its policy No. YC2,984,368 and will not be required to pay any judgment which may be entered in the action,

Mr. Charles W. Green,
Attorney at Law.

you may deem it desirable and proper to have this firm or some attorneys other than the Lumbermen's Mutual counsel take the defense of the action and follow it through to a conclusion". In this connection, it was our understanding that you were to protect our interests with respect to this action, working in cooperation with Mr. Ryder of the insurance carrier. This is referred to in your letter of November 18, 1944. It is our understanding that the Lumbermen believed this to be a compensation case and were willing to accept liability under their policy as a result of the post-mortem performed on Mrs. Clemens at the time of her death. Although the Lumbermen are no longer our insurance carrier, they certainly have an interest in this case and should continue to cooperate fully in defense of the action which has been brought through Mr. Clay.

After you have had an opportunity to review the case further, we shall be glad to have your comments.

Very truly yours,

THE GARLOCK PACKING COMPANY

Assistant Secretary.

Re: Clemons vs. Garlock

Dear Sir:

We have your letter of December 20 relating to attorney's fees in the above proceedings. We are today sending a copy of your letter to the carrier involved, American Lumbermens Mutual Casualty Company of Illinois, which we assume is informed as to the terms of the award and will take action in accordance therewith.

Very truly yours,

Re: Vera Clemons, dec'd
vs: The Garlock Packing Company

Dear Mr. Alsdorf:

We acknowledge receipt of your letter of February 1, 1949 with the photostat of the notice of decision in the compensation claim.

We fully agree with your comments in the second paragraph of your letter. As a matter of fact we learned that the notice had been held up for some reason - probably to secure an actuarial computation. We assume that pursuant to the usual practice the Board's folder will now be forwarded to the New York Actuary of the Department to compute the present value of the award. After that, a further notice will be sent out stating the amount the Carrier is required to pay in a lump sum covering future payments. Since the amendment of some years back, the carrier is now compelled to pay in one lump sum to the Aggregate Trust Fund to cover all future payments.

* With respect to your last paragraph, you are apparently working under the assumption that death benefits are payable to the respective children only until each becomes 18 years of age. This is the provision in Section 16 of the statute. However, Section 66 as it existed at the date of the death contains no such limitation with respect to the age of the children. The second sentence of Section 66 provides for the payment of benefits for temporary or permanent total disability or death from silicosis or other dust disease, "notwithstanding any other provision of this chapter***". However, payment is to be made only to employees *** or to their dependents. This is the reason that the claim of the husband was denied.

I have tried to reach Mr. Ryder since receiving your letter but he is out of town. I shall discuss this angle with him at the

To: Mr. J. R. Alsdorf
Re: Vera Clemons

-2-

2/7/49

first opportunity and see if his interpretation of the statute is the same as mine and if there is any question about it, I shall let you know.

It is to be noted that Article 4-a was repealed by Chapter 431 of the Laws of 1947, effective July 1, 1947. However, Section 14 of the repealing act provided in effect that any rights previously accrued under Article 4-a prior to July 1, 1947 shall inure to the benefit of any persons affected thereby as though such Article had not been repealed. This saving clause seems directly applicable to the Clemons claim.

I have arranged to obtain photostats not only of the notice of award but of the claim and medical reports together with Mr. Clay's letter of transmittal to the Board and as soon as they are available we shall prepare our motion papers for leave to serve an amended answer, setting up the compensation proceeding and award as a further defense by way of election of remedy. If we are permitted to serve an amended answer, we shall thereupon move either for a dismissal or for judgment on the pleadings along the line of our discussion with you.

Of course, you understand that we could make no motions until the notice of award went out. We shall keep you advised.

Very truly yours,

STRANG, BODINE, WRIGHT & COMBS

By

CWG-1b

* Note: 2/11/49 Mr Green phoned: Regard this letter with question mark. Subsequent talks at Board reveal possibility compensation to children may terminate at age 18. Will advise later, as Ryder investigates

Re: Vera Clemons, dec'd. vs.
The Garlock Packing Company

Dear Mr. Green:

Enclosed is photostat copy of corrected notice of decision in the workmen's compensation case. This is the second corrected notice being dated February 24, the first corrected notice being dated February 11.

You will note that the only change over the first corrected notice is that the award is stated "not to exceed \$6,500.00" rather than in full amount of \$6,500.00. I know you will wish to inform yourself of the reason behind this change if you are not already aware of it.

Very truly yours,

Re: Vera Clemons, dec'd
vs: The Garlock Packing Co.

Dear Mr. Alsdorf:

Replying to your letter of April 19, 1949, Mr. Ryder informed me that the awards had been straightened out to the satisfaction of his company and that arrangements were being made to pay the same. Frankly, I neglected to jot down any figures but it was agreed that the death benefits payable to the children would terminate on each child's attaining the age of 18 years.

This clears the way for the motions that we discussed and we shall proceed to prepare our papers as soon as possible, keeping you advised.

Very truly yours,

STRANG, BODINE, WRIGHT & COMBS
