

foreign-made and illegally subsidized steel entities that do not meet our current environmental, labor, and accountability standards.

As you move forward, we would strongly encourage you to more openly communicate with steel industry experts and other stakeholders to ensure that proposed requirements are based on proven technology and robust scientific data. It is essential to ensure that proposed rules are technically feasible, financially reasonable, and continue protecting the livelihoods, health, and safety of workers and steel-producing communities throughout our nation.

Sincerely,

Eric A. "Rick" Crawford
Member of Congress
Chair, Congressional Steel Caucus

Frank Mrvan
Member of Congress
Vice-Chair, Congressional Steel Caucus
