**Subject:** RE: ORMS recommendations

Hi Annie, thank you for your comments. I had some additional questions/comments for you.

Re: the ORMS effort on EO 13771, who is/are the special uses and hydropower specialists on that team?

Regarding geothermal resources, while it is a source of renewable energy, the FS manages it under the minerals program, and we do so with the BLM (b)(5);Deliberative Process Privilege

Without being too detailed in the plan, the FS does not have its own geothermal regulations, rather we act under responsibilities given us in the BLM regulations. (b)(5);Deliberative Process Privilege

(b)(5);Deliberative Process Privilege

With respect to transmission and delivery infrastructure, they are authorized under the agency special use regulations and policy, which would be reviewed as part of the package in Section IV a and b. So I am (b)(5);Deliberative Process Privilege

(b)(5);Deliberative Process Privilege

Would these approaches address your comments?

Thanks, LM

**Subject:** ORMS recommendations

Leslie/Randy/Liane,

Please find attached comments from ORMS on the plan you are developing. Please let me or Michael Migliori know if you have any questions.

Thanks very much.
