Dear Professor Zielhuis:

Enclosed are three (3) copies of the manuscript, "Models for the Relationship Between Blood Lead and Air Lead", which I'm submitting for publication in International Archives of Occupational and Environmental Health. This paper identifies a critical defect in one of the commonly used models for the relationship between blood lead and air lead and proposed a useful alternative.

Your consideration of this paper is appreciated. I look forward to hearing from you concerning the appropriateness of this paper for publication in your journal.

Very truly yours,
