MOUND CITY PAINT AND COLOR COMPANY

ACQUIRED - from Shapleigh Hardware Company of St. Louis as of May 1, 1954 the following assets of their Mound City Paint and Color Company Division:

Raw material inventory was purchased at 90% of cost and finished stock at 75% of its inventory price.

Receivables of 197,095 were purchased outright, with a total bad debt reserve of 16,869 against these. 12,116 of the reserve was against specific accounts with the agreement that such portion of the reserve which was not needed would be refunded to sellers. 8,123 was refunded, 1,821 covered accounts not collected and was reassigned to sellers, while the balance of 2,172 was carried by Glidden in suspense for possible future collection.

Land and warehouse at Dallas and plant furniture and fixtures were purchased at net book value. Machinery and equipment was purchased at our conservative sound valuation. Goodwill, patents, trade marks, trade secrets, knowhow, formulas, processes, etc. were acquired at no cost.

Glidden obligated to employ sales staff and make effort to employ factory personnel. No pension past service liability incurred on employees taken over.

ZAPON DIVISION OF ATLAS POWDER COMPANY

ACQUIRED - from Atlas Powder Company as of March 22, 1955 the following fluid assets of their Zapon Division located at Stamford, Conn. and North Chicago, Illinois:

Raw material inventory was purchased at 85% of lower of cost or market for regular, 50% for slow-moving and no charge for dead inventory.

Finished stock inventory was purchased for 85% of cost for Class A (items sold within 60 days of acquisition), 50% of cost for Class B (items unsold but covered by accepted customer order within 60 days) and Class D (bases, plant stock, etc.), and no charge for Class C (items unsold and unordered after 60 days) and Class E (dead stock). Atlas had an additional 10 days to claim any or all of Class C stock for their own use.

Accounts receivable were assigned to Glidden with full guarantee by Atlas. Glidden required to pay 75% of assigned receivables within 30 days, and monthly thereafter for any receivables collected in excess of previous payments.

Nothing was paid for goodwill, trade marks, production processes, files of sales, purchasing, cost, laboratory and quality control departments or other intangibles. No fixed assets were purchased. Past pension service was granted employees taken over except three older employees who remained under Atlas' pension for past service.

11/15/58

GENERAL PAINT COMPANY*

ACQUIRED - from General Paint Corporation its paint business in the western states consisting of two (2) manufacturing units and twenty-one (21) branches as of June 1, 1958. The following assets were acquired.

Raw material and finished stock inventories were purchased for 85% of net book value based on lower of cost or market. Slow-moving or discontinued inventories were acquire at 50% of cost or less for raw materials and at $.50 per gallon for finished stock. In addition, Glidden purchased the labels at 50% of cost and paid a flat $10,000 for all "Trend Tone" tinting colors and materials. Unsold inventory at 11/30/58, not to exceed 6% of total inventory value, was returnable.

The buildings at Tulsa, machinery and equipment at Portland and Tulsa and the furniture and fixtures at all locations were acquired at 80% of net book value. Glidden took over the leases on the land at Tulsa, and the land and buildings at Portland and all twenty-one (21) branches.

Receivables were assigned for collection only. Glidden acquired 186 employees.

(2) Advertising materials 7,119; Miscellaneous Supplies 67.
(3) Includes 44 laborers, 21 inside branch sales clerks and 14 branch warehousemen.

12/1/61

JOHNSTOWN

ACQUIRED - From Crane Company of Chicago as of January 31, 1961 the following assets of their Johnstown, Pa. Powdered Metals Division:

Raw material and supplies, work in process and finished stock were acquired at book value, which is the actual cost or standard cost.

Land, buildings and machinery were purchased for 450,000. These assets were estimated to have a sound value of 860,000 by our Company engineer, Mr. I. J. Foote.

All patents and trademarks applicable to the business and all inventions of employees are transferred to Glidden.

Glidden assumes a lease agreement for parking space adjacent to the plant and an industrial track agreement with U. S. Steel covering .03 acres of land upon which a railroad siding is located.

Glidden assumes no responsibilities arising from past employment of any salary and hourly personnel of said Metals Division.

(3) Land 640; Buildings and improvements 30,000; Machinery and furniture 419,360.

GLD010113

ARCHITECTURAL PRODUCTS
Marietta

ACQUIRED - from the McPhran Corporation the assets of their fiberglass panel operation at Marietta, Georgia as of May 17, 1961.

Raw materials, finished stocks, work in process and packaging supplies inventories were purchased as of the closing date at a value determined by following the usual accounting practices employed by McPhran. The method so employed bore the approval of the Certified Public Accountants who supervised the November 30, 1960 inventory.

Furniture and fixtures, leasehold improvements, machinery and equipment, patents, trademarks and accounts receivable were purchased at specific contract prices determined and based upon the financial statements of McPhran as of November 30, 1960 as amended April 27, 1961. It was agreed that the amounts stated in the purchase agreement would be subject to and adjusted for differences disclosed in the audit made prior to our takeover.

We assumed on an assignment basis the existing property lease dated July 29, 1958. The agreement called for a three year lease commencing May 1, 1961 with provision for an additional five years.

	First Full Year 1962	1963	Average	First Partial Year 1961

GLD010114

JOHNSONBURG

ACQUIRED - from Radio Cores, Inc., an Illinois corporation, as of May 26, 1961 all of the issued and outstanding shares of the capital stock of Magnetic Powders, Inc., a Pennsylvania corporation located at Johnsonburg, Pennsylvania. Consideration for this purchase of stock was 80,000.

In addition, Glidden donated 25,000 to Magnetic for the purchase of machinery and equipment from Stackpole Carbon Company. This equipment had been leased by Magnetic from Stackpole and at the date of Magnetic's purchase had an appraised value of 37,500.

An unaudited Balance Sheet as of May 25, 1961 gives the following valuations included in the 80,000 stock purchase:

Assets		Liabilities	
Cash	34,629	Accounts payable	3,390
Accounts receivable - net	14,570	Accruals	1,099
Inventories	32,020	Fed. & State income tax	1,326
Life insurance (cash value)	5,571	Total Liabilities	5,815
Deferred charges	1,200	Net Worth	
Land	1,325	Capital stock	29,300
	89,315	Earned surplus	54,200
		Total Net worth	83,500
			89,315

Glidden assumes a lease with the New York Pennsylvania Company on approximately 2.2 acres of land at an annual rental of 250 and a contract with the same company for the full output of their waste hydrogen at 25 cents per 1000 cubic feet, output averaging 3 1/2 million cubic feet per month. Glidden also acquires a lease on the buildings from Stackpole Carbon Company at a rental of 600 per month. Both leases are renewable. The building lease contains an option to buy.

Pemco Corporation

MERGED - with the Pemco Corporation, a manufacturer of inorganic chemicals, specializing in frits and colors, as of November 5, 1961.

At a special meeting held November 3, 1962, the Glidden shareholders approved a plan to merge Pemco Corporation into The Glidden Company. The merger was accomplished through an exchange of new Glidden $2.125 cumulative preferred stock for Pemco outstanding common stock. Glidden exchanged 199,840 of its preferred shares for 99,920 Pemco common shares.

* Pemco Corporation was acquired through a pooling of interests on November 5, 1961 and Pemco operating results cover the twelve months ended August 31, 1962.

Monostructure, Incorporated

ACQUIRED - from Monostructure, Inc., Sarasota, Florida, the assets of their architectural Products pilot operation as of May 28, 1962.

The purchase price of the Machinery and Equipment represents gross book value of these assets on Monostructure's books. Inventory was acquired for prices at cost and selling price. All packaging supplies and all miscellaneous operating supply materials were purchased for three thousand six hundred dollars ($3,600.00).

In addition, an agreement for consulting services and an employment contract were signed with the previous owner.

Vanadium-Alloys Steel Company

ACQUIRED - the assets of the Powder Metallurgy Department of Vanadium-Alloys Steel Company, Latrobe, Pennsylvania, for the production of stainless steel powders as of July 1, 1962.

In addition, Glidden obtained the U.S. and Canadian patents covering process for making powder developed by Vanadium. The patents had at time of acquisition approximately 15 years remaining life.

The equipment and inventory was transferred to the Johnstown plant and installed there as a separate Production Department.

According to Vanadium's records, average sales for the three fiscal years, prior to acquisition, was $362,000 and average profit was $115,000.

* Net Profit not available as operations are included within Johnstown.

** Includes cost of setting up new department at Johnstown and transferring the equipment from Latrobe to Johnstown.

GLD010119

OLNEY & CARPENTER

ACQUIRED - from Olney & Carpenter, Incorporated, the assets, properties and business of their specialty food processing operations at both Wolcott, New York and Eden, New York as of August 1, 1962. Under terms of the agreement the purchased net worth was determined by following the usual accounting practices employed by Olney & Carpenter, Incorporated. These practices were approved by the Certified Public Accountants who performed a complete audit of their financial statements as of July 31, 1962.

Inventory, land, buildings and equipment were acquired in the purchase of fair market value as determined by The American Appraisal Company. Accounts receivable, prepayments, accruals and accounts payable were purchased at book value.

	First Full Year 1963	1964	Average	First Partial Year 1962

H. J. Mayer and Sons Company (Canada)

ACQUIRED - from H. J. Mayer and Sons Company, all the inventory and equipment of their specialty spice and seasoning operation, as of September 1, 1963. Mayer maintained a plant at Chicago which was transferred to Bethlehem on or about April 1, 1964. The transfer was prompted due to the production similarities at Bethlehem.

A warehouse is also maintained at Toronto, Ontario, Canada. The Canadian operation produces the seasonings and spices on an as needed basis thus accounting for the relatively high ratio of net profit to net sales.

Two of the principal developers of Mayer were retained to provide the necessary technoligical know-how during the period of transition.

	First Full Year 1964	1965	Average	First Year 1964

H. J. Mayer and Sons Company (U. S.)

ACQUIRED - from H. J. Mayer and Sons Company, all the inventory and equipment of their specialty spice and seasoning operation, as of September 1, 1963. Mayer maintained a plant at Chicago as well as a warehouse at Toronto, Canada. Their specialty is in seasonings and spices for meat products.

The Chicago plant inventory and equipment were transferred to Durkee's Bethlehem plant about April 1, 1964. This was due primarily to the operations being quite similar. Mayer's operating results for this plant will now be consolidated with those of Bethlehem.

Two of the principal developers of Mayer are being retained to provide the necessary technological know-how during the period of transition.

GLD010122

Macco Chemical Company

At a special meeting held February 19, 1964, the Glidden shareholders approved a plan to merge the Macco Chemical Company into The Glidden Company. The merger was accomplished through an exchange of Glidden $2.125 cumulative preferred stock for Macco common stock. Glidden exchanged 58,500 of its preferred shares for 195,000 Macco common shares. The Glidden stock was of the same series as those of the Pemco Corporation merger of November 5, 1961.

Macco is composed of three divisions:

1. Macco Adhesives Division - manufactures adhesives, grouts and associated items for the ceramic and plastic tile industry.

2. Gates Engineering Company - manufactures, sells and applies highly specialized protective linings and coatings based largely on neoprene and hypalon.

3. Keller Products, Inc. - produces an extruded vinyl strip, of patented design, which is used with a special adhesive for sealing joints around tubs, sinks and shower stalls.

GLD010123

Walker Brothers, Limited

ACQUIRED - all the capital stock of Walker Brothers, Limited, Vancouver, British Columbia for $500,000 as of May 1, 1964.

Walker Brothers is a leading Canadian manufacturer of wood coatings and maintenance-trade sales paints. The success of the wood finishes operation is attributed to Walker's concentration on a small segment of this market. Finishes for plywood, sealers, shingle and shake now account for approximately 67% of sales while the maintenance-trade sales paints account for the other 33%.

There are three year employment contracts with each of the four principals of the company. These salaries will amount to $53,000 per year. Also, two of the principals will be paid $5,000 per year from the time employment terminates to age 65 or death, whichever occurs first. Under this provision, Glidden's maximum obligation is $80,000.

Gretchen Grant Kitchens, Inc.

ACQUIRED - from Gretchen Grant Kitchens, Inc., the assets (with the exception of receivables) and business of their specialized frozen pastry operation as of July 1, 1964. They are being operated as a part of the Foods Group and are a major producer of frozen French pastry hors d'oeuvres.

Gretchen Grant products are marketed to the institutional trade and to quality grocery and department stores throughout the country. The product line consists of 18 separate items which are sold either individually or in an assortment.

Louis and Michael Midler, founders and developers of Gretchen Grant, will be retained as independent contractors in a consulting capacity. They will help to facilitate the changeover to Glidden and the development of new French hors d'oeuvres.

CALIFORNIA-NEVADA BARYTES MINES
Barium and Barium King Mines
Argenta, Lander County, Nevada

The Mining claims known as Barium New Discovery patented claims Nos. 1 & 2 and Barium King patented claims Nos. 1, 2, 4, 6, 8 & 10 and land purchased from the Philippini Ranching Company June 18, 1936, located at Argenta, Lander County, Nevada were leased with option to purchase to Food Machinery and Chemical Corporation on February 1, 1955. Lease and option to purchase were later transferred to their wholly-owned subsidiary Barium Products, Ltd.

The lease is for a period of five years commencing February 1, 1955, and ending January 31, 1960. Food Machinery and Chemical Corporation are required to pay $1.50 per ton royalty on all ore shipped from the property, with a minimum annual payment of $50,000. If Food Machinery elects to exercise its option to purchase, the purchase price will be $500,000, actuarily reduced by royalty payments paid, to net The Glidden Company not less than $375,000 after taxes. At the time of the lease, the ore land was carried on our books at $9,419. Since then we have taken the 15% depletion charge allowed by Internal Revenue Code. By 12/31/55, the 15% depletion completely worked off the net book value of the land. No further depletion will be charged against book income, but 15% depletion will be taken for tax purposes on the tax returns.

	Cost	Reserve	Net Book Value

MARGARINE & SALAD PRODUCTS - TOTAL

SOLD - All margarine and salad products business East of the Rocky Mountains which has been serviced by the Macon, Norwalk and Iron Street plants. The Miami Margarine Company purchased the inventory and part of the fixed assets of the Norwalk and Iron Street operations on February 1, 1957. The Norwalk plant was used to manufacture salad products for Miami Margarine until they could get their plant into operation. Land and buildings at Norwalk and Iron Street were retained for outside sale. The Macon plant, equipment and inventory plus certain equipment at Norwalk and Iron Street was purchased by J. H. Filbert, Inc. on March 1, 1957. The Purchasers have the right to use the name "Durkee" for a period not to exceed (5) five years. The three succeeding pages show the effect of the sale by plant. These pages do not show the portions of the business sold to either Miami Margarine or J. H. Filbert, but show the total effect of both sales.

* Sales and profits annualized in 1955.

** Total margarine & salad products sales of $4,503,806 less increase in sales to Miami and Filbert $3,496,465 for remainder of fiscal year.

MARGARINE & SALAD PRODUCTS - NORWALK

SOLD - The margarine and salad products business including inventories and fixed assets excluding land and building were sold. The building was written down to its marketable value for future sale. The cash proceeds for the inventory applies to the inventory sold as of February 1, 1957 and does not include the salad products which we manufactured for Miami Margarine until it was feasible for them to produce salad products at their plant. Sales, pre-tax profits and fluid assets include the Elmhurst or Region 501 portion which was serviced by the Norwalk plant.

MARGARINE & SALAD PRODUCTS - IRON STREET

SOLD - The margarine and salad products business including inventories and fixed assets excluding land and buildings were sold. The building was written down to its marketable value for future sale. Sales, pre-tax profits and fluid assets include the amounts for the Montana Territory which has been serviced by the Iron Street plant but operations were reported under Berkeley. Some margarine was produced for Miami Margarine after February 1, 1957 to supplement their Cincinnati production, but this was produced at cost. The office and warehouse were sold to Max and Sophie Shayman on August 13, 1958 for $45,000 less fees.

CHEMURGY DIVISIONS

SOLD - The existing soybean processing and grain merchandising operations to Central Soya Company, Inc. Central Soya purchased the inventories and supplies at market value and agreed to collect for The Glidden Company the accounts receivable outstanding at August 31, 1958. The physical properties are being operated by Central Soya under a Lease, License and Option Agreement, which provides for an annual rental of $2,175,000, plus property taxes and insurance from September 1, 1958 to August 31, 1961. Central Soya, at its option, may purchase the physical properties on August 31, 1961 for $8,550,000, payable in cash. This option was exercised and payment was received September 1, 1961. Central Soya purchased some of the Sterol Dept. fixed assets at net book value and the remainder were abandoned. The Sterol patents, applications and technological knowhow were sold to Charles Pfizer & Company for $110,000.
