Executive Periodic Health Evaluation Examination Program

Each of you have, or will receive, a letter from Dr. J.H. Wolfsie advising you that you are eligible to participate in the Executive Periodic Health Evaluation Examination Program. He reports that the examinations will be performed by Executive Health Examiners and will be offered instead of the former Life Extension Examination.

Dr. Wolfsie also advises me that examinations will be given by a select physician in Cleveland. If you are less satisfied than with the former physician, under Life Extension Examiners, then we should make our opinions known.

I would appreciate being kept informed so that I might offer the necessary assistance to appraise annual examinations under this new plan.
