Lombard, Illinois 60148

Dear Steve:

In re: v. Sherwin-Williams

Just so that you will know that I received your message, I'll meet you at Capitol Airport on Friday, June 4 at 9:20 A.M. When Dr. Van Ordstrand comes in at 9:45, we'll go directly to Doctors Park X-Ray. They have at least three films of . I will have with me 1979 and 1980 films from St. John's Hospital, which I believe are copies only. I will also have films from Hillsboro Hospital from 1981.

From there we will drive to St. John's Hospital and Dr. Van Ordstrand can view the microfilm of the 1972 x-rays and lung scan. At that time if he wants to look at the original of the St. John's 79 and 80 x-rays, he can. I thought we should have the copies for comparative purposes when we stop at Doctors Park, however.

Unfortunately, Hillsboro Hospital say they have destroyed their earlier x-rays.

I can't remember that you made a definite time for our arrival in Hillsboro. With a little luck, and a short lunch, we might make it by 1:30.

Very truly yours,

LIVINGSTONE, MUELLER, GUNNING AND DAVLIN
