**LABELLING - HAZARDOUS SUBSTANCES -
EXEMPTIONS**

I have ready your January 5 letter with its attachments regarding the revision in the exemptions for small packages under the Federal Hazardous Substances Labelling Act.

I assume that our present labelling of our Antique Kits and others is OK and that we will not have to make any further change in them. I would assume that with this new regulation that probably our kits are actually over-labelled but I'm sure we would not want to go to the expense of changing the wording on the outside of the kits now.

Is this OK?
