

12 June 1973

Mr. M. J. Messel, President
Lake Asbestos of Quebec, Ltd.
Black Lake, Megantic County
P. O. Box 608
Providence of Quebec, Canada

Dear Mr. Messel:

First, I would like to thank you for your kindness and hospitality on my recent visit to the Lake Asbestos operations. Both Mrs. Hine and I were extremely pleased with the cordial hospitality. Mr. Piuce was also very generous with his time in tour of the mill and most informative.

I am enclosing for your general information a notice of some new Safety Regulations which will probably be adopted without a great deal of change regarding the handling of asbestos in the State of California. I presume that similar legislation will be adopted generally in other parts of the United States in the future. You will undoubtedly be interested in the labeling requirements and the prescribed method of handling bagged asbestos.

Cordially,

C. H. Hine, M.D., Ph.D.
Medical Director
American Smelting & Refining Company
