Mr. Marcus Smith
Sun Polymers, Inc.
P. O. Box 517
Cloud Drive
Sunshine, Louisiana 70780

Dear Mr. Smith

Rick Flammer recently asked me to review your environmental permit with the state of Louisiana in regard to the business we do with Sun Polymers. Based on that review, I would like to know if the potential VCM emissions from the off-grade material you process is a concern in your operations. Although we know the RVCM to be significantly higher than "premium grade" product, we don't have experience in the emissions that might result from processing of these materials.

Sincerely,

Thomas G. Grumbles, C.I.H.
Environmental Quality Manager
