**Subject:** Press Inquiry about Climate Change

Educational publisher Pearson ERPI is preparing an English as a second language textbook called LEAP 4. The author would like to include two illustrations found on your website for students from A student's guide to Global Climate Change. The permission request with project information and the illustrations is attached, we would like permission to use these (removing the numbers) and would require a high resolution copy for printing. Please let me know if I should be addressing this request to someone else.

Kind regards,  
Rachel Irwin
