Dear Dr. Agostini:

In behalf of the Executive Board of The Vinyl Institute, it is our pleasure to invite Montedison VCM/PVC as one of a select group of foreign manufacturers to join the Institute as an Associate Member. The Vinyl Institute was formed in November, 1982 by a number of major U.S. producers of polyvinyl chloride (PVC) and vinyl chloride monomer (VCM) to respond with one voice to irresponsible attacks on the safety of PVC and to promote its continued growth. Not only are we waging a strong public relations campaign, The Vinyl Institute is also sponsoring research to develop reliable safety information.

As an Associate Member, your company will be able to:

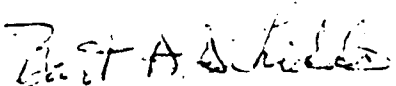

- Attend all meetings of The Vinyl Institute and participate in its discussions.
- Receive all mailings and literature of the Institute.
- Receive early warnings and information on trends and/or factors affecting the VCM/PVC businesses.
- Receive early intelligence on situations occurring in the United States that could well affect business in your area of the world.

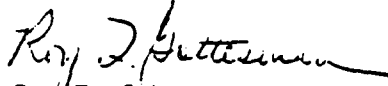

Enclosed is a brochure which will tell you more about The Vinyl Institute and an information packet "PVC: the facts . . ." which the Institute has published as part of its information program.

Also enclosed is an application form for your use. We look forward to welcoming Montedison VCM/PVC as an Associate Member of The Vinyl Institute in the very near future.

Cordially yours,

SPI-07281
