I am sending you five samples of insulation for analysis to determine if they contain more than 1% asbestos. Listed below is a description of these samples.

Sample No.	Description
MC-8605	Sample of insulation from side of Pitch Tank #22B; sampled 5/30/86
MC-8606	Sample of insulation from steam line to garage and paint-carpenter shops; collected from line south of Pitch Tank #22C on 5/30/86
MC-8607	Sample of insulation from above steam line; collected south of Water Tower on 5/30/86
MC-8608	Sample of insulation from above steam line; collected at east side of Building #33 (garage) on 5/30/86
MC-8609	Sample of insulation from above steam line; collected between Building #31 (carpenter shop) and Building #32 (paint shop) on 5/30/86
