Agenda for Meeting with Mr. Garrett, May 12, 1987

I. Overview of Krummrich morbidity study
II. Classification of Exposure
III. Sources of Data on Exposure
    A. SMPs
        1. Dept 237: DCP not covered
        2. Dept 236: None after 1968
        3. Dept 268: None available
    B. Industrial Hygiene Reports
    C. Quality Assurance Data on PCDDs
IV. Job Titles and Descriptions
    A. MEHI
    B. Union/Management Contracts
    C. SMPs
    D. Interviews
V. Exposure Information Required for Data Analysis (for each Dept.)
    A. Overview
        1. Historical overview of principle products and their uses
        2. Production rates over time
        3. Sites of production at Krummrich
    B. Synopsis of Process
        1. Chemistry
        2. Steps in process
        3. Flow diagrams
        4. Forms and yields of materials and products
        5. Major equipment
        6. Cycle times
    C. Chronology of Major Process Changes
    D. Job Titles and Descriptions
    E. Industrial Hygiene
        1. Recognition of Hazards
        2. Chronology of Process Controls
        3. Personal Protection
        4. Industrial Hygiene Surveys and Environmental Monitoring
    F. PCDDs and PCDFs
        1. Chemistry of formation
        2. Sampling results
        3. Opportunities for worker exposure
VI. G. Exposure Ranking by Potential for Exposure to PCDDs/PCDFs
        1. By Department
        2. By Calendar Time
        3. By Job Title
VII. H. Plan of Work
        1. Tasks
        2. Timetable
        3. Product

DSW 476038.0919
