S-W Old Dutch Enamel

is made by the slow and thorough Old Dutch process. It gives woodwork a surface as white and glossy as china, or dull, but still brilliantly white if you prefer. Old Dutch Enamel is very durable, does not crack or chip off and **STAYS WHITE.**

S-W Old Dutch Process White Lead

is the painter's pet. He wants its color, its body, its fine reducing qualities and its capacity. He banks on its great covering power and loves its "feel" under the brush and its fast, easy working qualities. It gives unexcelled wear.

S-W First Quality Oil Colors

The tinting strength and purity of tone of S-W Oil Colors have won for them the preference of many painters. They are manufactured especially for painters' use. Put up in tubes, cans and pails.

**For Spring
Decorating**

To paint, enamel or varnish get our color schemes and decorative plans, free to painters and home owners.
