

A NEW **KEWANEE** PRODUCT

Providing
large quantities of
HOT WATER
at the turn of the tap

any place where large quantities of Hot Water are used . . . and economy is a keynote!

Here is a direct fired heater... ideal for any building where larger quantities of hot water are needed... designed to "stand the gauntlet" of strenuous service and provide plenty of hot water dependably and economically.

Toots in design from inside out and built by the same skilled workmen of the same sturdy steel plate and thickness as used in the larger Kewanee Products. The Cottage Boiler provides strength and dependability beyond question. Manufactured and welded in strict accordance with A. S. M. E. code, tested at 150 lbs. hydrostatic pressure for working pressures of 100 lbs. it is amply strong to safely withstand the high water pressures carried in most city mains.

Teamed with an analog 100-gal burner, the Citizee burner provides surprising efficiency in waste-sterilizing jobs. Efficient and attractive, the Citizee's one green jacket is an absolute necessity in minimum of space.

Slide - remove the eight bolts and cover plate. Steam is released in 10 seconds. Push - the piston will slide into the water. Close - the piston will return to the top. Piston - the piston will return to the top. Piston - the piston will return to the top. Piston - the piston will return to the top.

For most materials, use the following Storage Table. In all the places, use the above information to get the best results.

Cum gratia et honoris: Theodor von Schlegel

1. *Pharmaceuticals* – The pharmaceutical industry is a major contributor to the U.S. economy, with sales exceeding \$300 billion in 2004. The industry is heavily regulated by the FDA, which oversees the safety, efficacy, and quality of drugs. The industry is also subject to antitrust laws, which prohibit anti-competitive behavior.

[illegible]

Return the control to the P-4 of the heater or to any other of the sub-PM channels.
