I had a good conversation with Administrator Pruitt last night and discussed the USCG alternative compliance program for environmental and safety. He sounded very interested and asked for more information on the subject.

We could do this several ways and I'm happy to pursue it in the way that best helps you in your work. One option would be to bring in USCG to the meeting—they have been supportive of this initiative.

Happy to come over to your office and discuss, or a call if you prefer.
