Re: Whittaker Clark & Daniels
Our File No.: 5964698 - NJG

To Whom It May Concern:

This correspondence is intended to supplement our request for documents under the Freedom of Information Act, 5 U.S.C. § 552, submitted electronically via FDA.gov. We are seeking any and all documents, studies, raw data, and other materials referred to and/or related to a Food and Drug Administration publication entitled "Summary and Comments on Analyses for Asbestos in Cosmetic Talc Products" by Heinz J. Eiermann, dated October 1, 1973.

Specifically, we are seeking copies of the four analyses referred to in Mr. Eiermann's summary and comments, as well as any/all raw data related thereto.¹ In addition, we are seeking any related publications, documents, data, analyses, summaries, commentaries or any other materials created and/or published subsequent to Mr. Eiermann's summary and comments.

This information is sought in relation to ongoing litigation involving our client, Whittaker, Clark & Daniels.

Please contact our office if further clarification is required. Thank you for your prompt cooperation in this regard.

Very truly yours,

KATHERINE BLOK

KTB:ds

¹ Seymour Z. Lewin, New York University, commissioned by the FDA in 1971 to analyze commercial cosmetic talc products; Arnold E. Schulze, Microanalytical Branch, Division of Microbiology (BF-216), FDA; Minerals, Pigments and Metals Division, Pfizer, Inc., Easton, Penn.; and Columbia Scientific Industries, Austin, Texas.
