Mr. J. W. Anderson

Attention: Mr. B. C. Crane

Dear Sir,

This will acknowledge your letter of July 29th in connection with the new Co. A. Metal Fume Respirators put out by the Fine Safety Appliances Company.

You should receive these dust masks shortly, as we ordered them out on July 17th. Such masks are not, however, suitable for metal fumes, nor is a metal fume mask suitable for dust. I believe we should stick to the type which our medical department recommended.

Very truly yours,

cc: Dr. R. A. Kehoe:
