AIR MAIL

Mr. John Waddell
Turner Brothers Asbestos Co. Ltd.
Rochdale
ENGLAND

Dear Mr. Waddell:

We have made good progress in our discussions of [illegible]
Dr. Knox's and Dr. Holmes' proposed visit to Johns-Manville and
the patent problem on [illegible].

Samples of our yarns have been sent to Mr. Wells, who [illegible]
the cotton dilo [illegible] fused and polished yarn [illegible]
with glass fibers used in the United States. [illegible]
of aluminum sliding and PVC sliding sizes and [illegible]
U.S. We [illegible] Mr. Wells can determine the [illegible]
DEMAPONE that we can use to compete in this [illegible]
to make a full evaluation before May 1.

Dr. Knox and Dr. Holmes have stated that [illegible]
as fast and expensive during the first 10 days of [illegible]
your convenience is required. We shall look forward to [illegible]
from you.

The patent problem has been discussed with Mr. Atkinson [illegible]
Mr. McKinney has been instructed to settle the [illegible]
and we anticipate no further problems.

Mr. Waddell, I want to thank you for your hospitality [illegible]
thoughtfulness, and I am looking forward to [illegible]
in May.

Sincerely,

A. C. Hale
Vice President [illegible]
Development & [illegible]
