William Salley #8031

Bruce and I met with this employee this date. I have advised Bill of proper procedure for filing a claim under the Texas Compensation Program. I have also advised Bill that at this point his claim for Asbestosis would have no monetary weight as it is not currently disabling.

I have agreed to get the required forms for Bill and send them to his house.

Reviewed with Bruce who agrees we should let Vore Adams know where we stand on the case —

Ray
