DOC#: NSC341

DOCUMENT DESCRIPTION: Letter to Mr. Donald Tulloch RE K&M & Boiler  
Jackets

August 12, 1935.

Mr. Donald Tulloch, Jr.  
16th Floor Inquirer Bldg.,  
Philadelphia, Pa.

Dear Don:

The matter referred to in your note reference to the quotation on boiler jackets brings to my mind that so far you have not been successful in having I & M declare themselves on this situation and I feel they are playing "horse" with you and ourselves. This is also true of National Asbestos, who is infringing on our patent, and it has probably caused feelings on the part of others that these folks are privileged to carry on without our taking a stand.

It so happens I will meet Mr. Elagden with in the next few days on another matter and I am going to discuss it with him and insist on their making a decision which I think is only fair.

Yours very truly,

AKB/K

President.
