Cleveland, Ohio 44131

Dear Julian:

Knowing of your interest in the situation regarding the New York State Toxicity Data Bank, which we recently discussed, I am enclosing a copy of a letter from Pat Toner dated September 13 to Fred Richard which is self-explanatory. I believe Pat is trying to set up a meeting to involve the Plastic Pipe Institute (PPI) and the New York State people for late October. I will be "plugged in" to the progress made at that meeting via Stan Mruk and Norm Bryan of PPI and will keep you advised.

Also enclosed is a privileged and confidential letter from Sheila Millar of Keller and Heckman to Pat Toner which is interesting and you may wish to provide this to your attorneys for their possible use. Please treat Sheila's letter as confidential.

Kindest personal regards.

Sincerely yours,

Roy

Mr. Fred Richards
Office of Fire Prevention & Control
State of New York
Department of State
Albany, New York 12331-001

Dear Fred:

I am writing to request a meeting to discuss your concerns regarding the data we submitted for our PVC pipe classification. As I'm sure you are aware, I asked Sheila Millar, Keller and Heckman, SPI's legal counsel, to talk to Phil Sparkes to get some background on the State's thinking which lead to Frank's letter to Norm Bryan of our Plastic Pipe Institute regarding closure of our classification for PVC pipe.

Sparkes indicated to Millar that your concerns about the data are technical in nature and as Frank indicated in his letter that you are ready to work with us to resolve those technical issues. We are ready also and feel some urgency to resolve these issues before the end of the year so that the class may remain open to our pipe producing members. We do feel that US Testing should be part of the discussion and would propose to invite them to any meeting unless you suggest otherwise.

It may be more difficult to arrange a meeting date than to resolve the technical issues so please call me at your earliest convenience to begin the process of finding a date we can all make.

I look forward to resolving this issue.

Regards,
