Re: Senator Muskie Hearings on Air Pollution Scheduled

We have for you the agenda, as of this moment, for the hearings to be held by the Senate Special Sub-Committee on Air and Water Pollution chaired by Senator Edmund S. Muskie, Maine.

- June 7 Secretary John V. Gardner of HEW
Senator Paul Douglas (The Senator will be pushing his bill
on solid waste disposal)
Norman Cousins
Senator Lee Metcalf
- June 8 Dr. William E. Stewart, Surgeon General DEPHS
Dr. Richard Prindle, Chief of the new bureau of PHS which
includes Air Pollution
Dr. Edward Blomquist
- June 9 LIA (We have been promised an invitation)
Dr. Robert A. Kehoe
Dr. Harriet L. Hardy (Nominally to speak on beryllium)
- June 14 Vernon O. MacKenzie
- June 15 Solid Waste Disposal with testimony by interested parties
such as the Auto Wreckers Association

The LIA presentation will probably be given by Felix Wormser, former Secretary and President of LIA. He will be seconded by David A. Borcine, present Secretary and Treasurer, and Don O. Fowler, although Messrs Borcine and Fowler will not make a statement but will be available for questions, if any.

For those of you who wish to attend the hearings the LIA and all those who are interested are planning to stay at the Madison Hotel in Washington.

This is for your information.

Very truly yours,

Don O. Fowler
