THE LOWE BROTHERS COMPANY

32 U 7 7746 G1017

INTER-OFFICE CORRESPONDENCE

TO T. J. McDowell - Cleveland

DATE January 18, 1937.

FROM C. W. Parrott

REPLYING TO LETTER DATED Jan. 13

COPIES TO Advertising - Trade Sales

SUBJECT Lowe Trade-marks

Under separate cover we are sending you the Cuban registrations of our Trade-marks or trade names as follows:

"Derby Red"
 "DCW"
 "Mello-Gloss"
 "Mellotone"
 "Neptunite"
 "1 Plus 1"
 "Sealcote"
 "H. S. "
 "Lowe Brothers"
 "Rich-tone"

According to our records here we also registered in Cuba the name "Linduro" for which our records show the following information:

Date of registration - May 27, 1926
 No. of registration - 42547
 Registered name - "Linduro"

However we are unable to locate the formal or official registration papers on this particular one and cannot find any one in the department that keeps these records that can give us any further information in regard to this particular situation.

If it is considered sufficiently important the information as to the date of registration and registration number will doubtless be enough to obtain a duplicate official copy.

Chas. W. Parrott

C. W. Parrott

Trade Sales

Mr. Fasig

We are sending you herewith trademark registration #344061 covering the use of the new label design consisting of diagonal lines and brushes placed at intervals in the spaces occasioned by the diagonal lines.

We have already registered this design as applying to ready mixed house paint. This new registration #344061 covers the same as applying to - Varnishes, Enamels of the Paint or Varnish type, Lacquers, Stains, Undercoaters, Thinners for Paints, Thinners for Varnishes, Thinners for Enamels, Thinners for Lacquers, Thinners for Stains, Thinners for Undercoaters. Paste Filler, Liquid Filler, Paste Paints, Sealers, Varnish Oils and Priers, in Class No. 16, Paints and painters' materials.

In the future it should be remembered that in applying for a trademark registration we should, if possible, make the application cover all types of materials in our industry. This costs no more and gives us added protection for the design. We have been able to do this for several different products registered in the last few years.

It is possible that we may in the future find ourselves unable to continue the plan suggested by reason of a rule of the Patent Office, but as long as we can do it we should always make application covering the full line or range of products.

Paul Willis

C. W. Parrott

September 4, 1941.

Paul

The Advertising Department has always assumed the responsibility of registering or listing trademarks or trade names with the Trade Mark Bureau of the National Association. This office assumes the responsibility of registrations with the United States Patent Office.

It is our understanding that all names we have used in the past or are using now are registered or listed with the National Association Trade Mark Bureau. There is a difference, as we understand it, between registering and listing a name in the Trade Mark Bureau. One costs and the other does not.

We are sending for your attention the attached which was just received from the Trade Mark Bureau.
