SECTION I – INTRODUCTION**Site Entry and Purpose of the Inspection**

Type of inspection: Focused Compliance Inspection (FCI)

Port Fourchon and surrounding facilities were selected for inspection based on an Environmental Justice and Regional initiative to evaluate facilities at ports receiving or transporting Resource Conservation and Recovery Act (RCRA)-regulated hazardous wastes, and/or maintaining an International Convention for the Prevention of Pollution from Ships (MARPOL) Annex V Certificate of Adequacy (COA) issued by the U.S. Coast Guard (USCG)

This report is based on information supplied by the facility representatives, inspector observations, port related facilities, and records verbal or written statements made during or after the on-site inspection, and materials shown, demonstrated, or submitted to the EPA during or after the on-site inspection. In addition, information gathered prior to or after the inspection from a review of EPA, State, and public records may be included in this report.

Facility General Description

Tenant/Area	Inspection Date	Process Description	Areas of Concern
Galliano Marine Service, LLC	06/05/24	Galliano Marine Service, LLC (GMS) operates a fleet of vessels transporting hazardous waste, non-hazardous waste, and used oil from offshore drill ships and oil platforms to Port Fourchon. The company does not have its own dock space, but delivers waste generated offshore directly to its customers' facilities at the port. Customers are responsible for unloading, storing, and disposing of the waste once it arrives at the dock. GMS does not store any transported waste for its customers. Maintenance on GMS's vessels is performed at third party shipyards that manage any waste generated during cleaning or overhauling the boats. GMS is a VSQG of hazardous waste and does not maintain a MARPOL COA.	No

SECTION II – OBSERVATIONS

Tenant: Galliano Marice Service, LLC			
Section: 2.4	Date: 6/5/2024, 9:15 A.M.	Contains AOC: No	Contains CBI: No
Lead Inspector: Vince Damiano		Attendees: Matt Labat (QHSE Manager), Brittney Serigney (Environmental Supervisor)	
Mr. Labat and Ms. Serigney provided the inspection team with a summary of operations at GMS. GMS operates a fleet of vessels transporting hazardous waste, non-hazardous waste, and used oil from offshore drill ships and oil platforms to Port Fourchon. GMS also transports MARPOL Annex V waste (i.e., municipal waste) from ships to shore. Although GMS's vessels operate out of Port Fourchon, the company's office is in Cut Off, Louisiana. GMS is registered as a transporter of hazardous waste (LAD98159932). When transporting hazardous waste, GMS signs the hazardous waste manifest as Transporter #1, with the drill ship or oil platform signing as the generator. The company does not have its own dock space, but delivers waste generated offshore directly to its customers' facilities at the port. Customers are responsible for unloading, storing, and disposing of the waste once it arrives at their docks. GMS does not store any transported waste for its customers and does not maintain a MARPOL COA. GMS is a VSQG of hazardous waste, mostly generated from day-to-day operations on its vessels (i.e., paint waste). GMS arranges for third party transporters to pick up any hazardous waste generated onboard directly from the boats when they dock. GMS does not store any hazardous waste generated by its vessels at the port. In addition, all maintenance on GMS's vessels is performed at third party shipyards, which manage any waste generated during cleaning or overhauling the boats. Since GMS does not maintain a facility at Port Fourchon, no visual inspection was conducted following the opening meeting. No apparent areas of concern (AOCs) were identified during the opening conference; however, further EPA review may change or add to their potential AOCs. At the end of the opening conference, the inspection team requested the following information from GMS: - Information on the approximate number of vessels owned and people employed by GMS, as well as clarification on the name used by the company to register as a transporter with EPA (see Appendix 1). - The company's most recent RCRA notification (see Appendix 2). - The hazardous waste manifests for any waste transported in May 2024 by the vessels C-Ranger and Island Ventures. In a follow-up email, Ms. Serigney explained that neither C-Ranger nor Island Ventures transported hazardous waste in May 2024; however, other GMS vessels did transport hazardous waste that month, and GMS provided those manifests instead (see Appendix 3).			

SECTION III – RECORDS REVIEW

No RCRA regulated records were reviewed during this focused onsite inspection besides those mentioned in Section II.

SECTION IV – AREA OF CONCERN

No apparent AOCs were identified during this inspection.

SECTION V –FOLLOW UP

Documents or files provided by the facility were transmitted via email and included the provision of documents requested.

Communication Log

After the inspection, additional information was emailed to EPA including:

1. 6/20/2024 GMS email – Brittney Serigney provided additional information on GMS's operations, GMS's most recent RCRA notification, and May 2024 hazardous waste manifest.

Good Day All,

In response to the previous requests:

- Hazardous wastes manifests for any waste transported by Island Ventures and C-Ranger in May 2024.
The MV C-Ranger has been cold-stacked since 2015 and did not transport waste in May 2024. The MV Island Intervention did not transport hazardous waste in May 2024. However, we have attached manifests from May 2024 in which GMS vessels were the transporters.
- Clarification on the name of the transporter registered with EPA (Galliano Marine Service vs. Galliano Marine Services)
 - Galliano Marine Service, LLC is the EPA ID LAD981559632 and is a transporter for hazardous waste
 - Galliano Marine Services, LLC (Fourchon) is the EPA ID LAR000051029; and currently VSQGThe property is permitted under a common name, Galliano Marine Services-Fourchon. The parcel is leased by Offshore Support Services, LLC. We are submitting a Notification of Change Form (NOC-1) at the request of LDEQ to change the name from Galliano Marine Services-Fourchon to Offshore Support Services, LLC and move existing permits to the new name.
- The approximate number of employees and number of vessels operated by Galliano Marine Service.
80 vessels operating in GOM for the month of May 2024, approximately 700 mariners
- Your most recent RCRA notification
See attached "June_29_2021_LDEQ_Acknowledgement_of_Receipt_of_HW_1" and "GMS 2021 RCRA Notification." for Galliano Marine Service, LLC, EPA ID LAD981559632

Hi Brittney,

Thank you for your assistance in completing the inspection this morning at Galliano Marine Service. No areas of concern were noted at the time of the inspection. I am following up with a list of requested items from our inspection today. We would like you to send us:

- Hazardous wastes manifests for any waste transported by Island Ventures and C-Ranger in May 2024.
- Clarification on the name of the transporter registered with EPA (Galliano Marine Service vs. Galliano Marine Services)
- The approximate number of employees and number of vessels operated by Galliano Marine Service.
- Your most recent RCRA notification

Please send the requested information to me and the persons copied on this email within two weeks from this Friday. Thanks again for your time and please let us know if you have any questions or concerns.
