In Reply to _____ Date 4/16/70 From W.E. Smith To F. Lee Russell
Subject ASBESTOS FLASHING SHEET - CELOTEX

Carroll Homan has this material as we were shipped two rolls for our examination. If this is a product we feel would help us in the B/U field I suggest we purchase a few rolls. I have been in contact with Celotex on this and will get the details, if we want them.

I ^{don't} ~~did~~ think at this point it would be worth our while to saturate it.
