subject ASBESTOS FREE READY-MIX date November 18, 1974

I talked to Paul Schultz at Rochester concerning the asbestos free Ready-Mix National has introduced in the Rochester market. At the time I talked to Paul he had samples of that material in his office so you will receive samples soon.

I would like to suggest that any field tests of our asbestos free Ready-Mix be conducted in the Rochester market on material produced at Akron. Paul is receptive to this suggestion and has worked closely with Bill Nalbone in the past. This, together with the lower casein rices and the availability of asbestos free vinyl bag goods transferred to Akron from Marietta, will all contribute to overcoming the asbestos problem we have been faced with in this market.
