New York, N.Y. 10029

Dear Dr. Holstein:

We appreciated receiving your letter of September 21st concerning the establishing of a program of life-long surveillance for workers employed in the asbestos operation of the Pittsburgh Corning Corporation in Port Allegany.

We realize from our limited knowledge of the subject that a program of this type is absolutely essential in Port Allegany. We believe that such a program could best be administered by a group such as you are affiliated with.

I am sending a copy of your letter on to our Local Union 1019 urging that the local officers and the men give their fullest cooperation. If there is anything further that the international can do to be helpful, please advise.

Very truly yours,

George M. Parker
International President
