For what it's worth, you can reach me at (202) 906-9629 on Signal and WhatsApp, two encrypted messaging systems that ensure text conversations won't be hacked.

Thanks again,

Amy

Hi Ryan, I hope you're doing well. We haven't connected since your new gig (and since left WSJ for Axios). I hope you're enjoying your new gig!

We're hearing some stuff about the Paris deal, in particular how Administrator Pruitt has been involved, and we're hearing President Trump is looking to decide this week to withdraw from it. Would you be able to talk about this sometime today on deep background? I'm at 202.906.9629.

Thanks so much, and I hope to hear from you.

Amy

Subject: Your invitation to Join Us July 27

July 27, 2017

7:00 AM

Willard Intercontinental Hotel

Washington, D.C.

[Register Now](#)

The security issues facing today's public sector agencies are enormous. Government has become a leading target and consumer of counterfeit and grey market IT due to manipulations of the government procurement process by bad actors. In addition, mobile devices are flooding into the workplace and represent some of the more common threats to information.

On July 27, join PCM-G, Brig. Gen. Steven Spano (USAF, Ret.) and other tech leaders to discover how to combat vulnerabilities, implement a secure IT strategy, learn about Cyber Supply Chain Risk Management and how to secure a mobile ecosystem in the public sector.
