

LEAD INDUSTRIES ASSOCIATION, INC.

292 MADISON AVENUE

NEW YORK 17, N. Y.

January 29, 1962

SUBJECT: INFORMATION REQUESTS FROM THE
NATIONAL ASSOCIATION OF HOME BUILDERS SHOW

To Members of the Lead Industries Association, Inc.:

During the recent Home Builders Show (Dec. 3-7, 1961) in Chicago, our exhibit drew the attention of several thousands in the home building industry.

A list of nearly 200 inquiries for specific information and their subject of interest is attached. A glance at the subject breakdown indicates the popular interest of home builders in sound attenuation.

Because of the great number of inquiries on sound attenuation, the list has been arranged alphabetically by state, city and company under each subject of interest. These inquiries have been answered by our staff, and the names placed on our mailing list to receive LEAD.

In addition, many others stopped at our booth to see the building products display and took away literature on the subject. Issues of LEAD were very popular — almost 2,000 copies disappeared — with sound barrier literature running a close second.

<u>SUBJECT OF INQUIRY</u>	<u>NUMBER</u>
Sound barriers.....	160
Fallout shielding.....	12
X-ray shielding.....	9
Building components.....	8
All other.....	6
Total.....	195

Sincerely yours,

DMS:me

David M. Borcina
 David M. Borcina
