PLAINTIFF'S EXHIBIT CSR-291

180

Cue, 2nd. October 61.

The Manager,

Australian Blue Asbestos Ltd.,

WITTENOOM, W.A.

Dear Sir,

The State Mining Engineer has drawn my attention to the fact that you have not been submitting Annual Plans or copies of diamond drill bore hole core logs as required by Section 47 of the Mines Regulations Act and Regns 239,241,242,243, & 244 of the same Act; and Regn. 218 of The Mining Act, 1904-59.

According to our records plans were not submitted for the years 1957,1958, 1959, & 1960. I would suggest that you arrange for a set of tracings be prepared to indicate the extent of the workings at 31/12/1960 and indicate the yearly progress since 1956 by the use of coloured ink for each year.

Yours faithfully,

DISTRICT INSPECTOR OF MINES, CUE.

C 4071
