FROM: V. F. Villani - 511

SUBJECT: Project Justification and Scope Review
Stage II Fuel Conversion Project
CPS-001-210 - ES - Olefins Heat
Recovery Project CPS-001-45

Recent occurrences in environmental restraints and fuel availability/demand projections have an impact on the justification of our Stage II Project CPS-001-210. A scope reduction appears to be in order which could have an impact on the scope of our ES - Olefins No. 3 Heat Recovery Project CPS-001-45.

You are invited to attend a meeting to discuss these items scheduled as follows:

DATE: Friday, January 27, 1978
TIME: 8:30 A.M. - 3:30 P.M.
PLACE: Sheraton King's Inn
Prince 'C' Room
Clear Lake, Texas

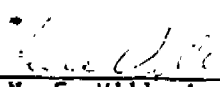

UCC
050272

Memo

- 2 -

January 5, 1978

The attached agenda is suggested. Please let me have any comments or suggestions you may have for improving the agenda.

V. F. Villani, Manager

AGENDA

8:30 - 9:00	Status of Environmental Protection Permits for Fuel Conversion	R. E. O'Bryan
9:00 - 9:30	Natural gas availability vs. demand balances at Texas City	R. H. Stodghill
9:30 - 10:00	Natural gas curtailments projected when, frequency per year, duration, extent (percentage, quantity of curtailment)	E. J. McGinness
10:00 - 10:30	Potential effect on gas availability of Black Marlin case and Channel negotiations	E. J. McGinness
10:30 - 11:00	Texas City steam capacity on gas vs. oil with and without Stage II Fuel Conversion assuming TLE and Olefins Waste Heat Projects are approved and Purchased Power Project CPS-001-280 is delayed until needed by the CAM Project	W. E. James
11:00 - 12:00	Stage II Scope redefined	W. E. James
12:00 - 1:00	Lunch	
1:00 - 2:00	Impact of locating new superheater at Steam Plant No. 3 vs. Olefins No. 3 site on capital and operating costs	N. W. Weaver
2:00 - 2:30	Plant preference on location and operating cost advantages	C. O. Steinmetz/ R. Barber
2:30 - 3:30	Wrap Up	All
