

NEG. NO. AA-24

TRADEMARK FILE INFORMATION

Trademark:	Design - Flag Emblem
Trademark Owner:	Rutland Fire Clay Company
Last Assignee:	None
Date of First Use in Commerce:	May 24, 1963
Registration No.:	918,739
Date Trademark Registered:	August 24, 1971
Size of Label in Trademark File:	N/A

Receipt of Pictured Label by Patent Office: N/A

RUTLAND FURNACE CEMENT

Nearly all of the ingredients used in Rutland Furnace Cement are the highest quality products of our own mines. These raw materials are carefully processed and blended with a fire-resistant binder, so that the cement is ready to use as it comes from the can. It is easily placed on the area where it is to be used with either the fingers or a knife. When Rutland sets, it forms a stone-like material which adheres permanently to the furnace and it will not burn away.

Rutland Furnace Cement can often do a repair job which would otherwise necessitate the replacement of part or all of the furnace or stove.
