

July 10, 1946

Dr. J. G. Townsend, Medical Director,  
Chief, Industrial Hygiene Division,  
U. S. Public Health Service,  
Washington 14, D. C.

Dear Dr. Townsend:

Thanks very much for your letter of July 1 and for the letter to Mr. Webb, which I have forwarded in accordance with your request.

In the matter of the publication of this material, it would be my feeling that the proposed regulations might well be published for the record without any indication of the fact that they were addressed primarily to Mr. Webb. In the past, the Public Health Service has not indicated the means by which these proposed recommendations have been implemented, and I should feel that there is no necessity for so doing at present. If Mr. Webb and his associates should have a different point of view about this matter, I shall be glad to communicate it to you.

Sincerely yours,

---

Robert A. Kehoe, M. D.
