Date: April 27, 1972

From: Robert A. Rogers

Subject: American Academy of Pediatrics

Confirming our telephone conversation of today, please arrange for a stenographer to cover the two days of the American Academy of Pediatrics' program on childhood lead poisoning (May 10 and 11) -- see attached.

I have asked Dr. Jerry Cole, who you know, to be in touch with you as to just what he wants done once he gets out there. In the meantime, I hope you win the proxy fight.

Best regards.
