Subject: Request for follow up meeting re Endangered Species and pollinator/monarch recovery
Received: 2017-06-01T12:56:19-04:00

Dear Arelia, Casey et al

This is to request a follow up meeting the afternoons of June 13 or 14 to discuss the Endangered Species Impediments to recovering monarchs and associated pollinator and other species on private working lands.

As you know from our previous discussion, this is action that is timely for fall planting activities, and could create a significant and meaningful action to reduce regulations while advancing conservation and empowering individuals and local communities to act.

These dates work well for our team to come - and we hope can work for you.

This meeting would give us an opportunity to move beyond the introduction of the idea and to start to lay the groundwork for action.

We all know that it will take several steps, but if we are to complete action in time for the private sector to implement action during the fall planting window there is some urgency to drive this ahead.

We hope this can work for you.

Best
Alex Echols

Super
I will follow up in a couple of weeks to see if we can find a date end of the month

The calendar is always a challenge and appreciate you are drinking from a fire hose

Thanks for the prompt reply
Alex

Dear Alex,
Thanks for following up and we greatly appreciate your visit. We're still in the process of following up internally. Casey is traveling and I'm out on travel for the next couple of weeks.

Let's try to get together and discuss in late June. Thank you very much.

Kindest Regards,

Aurelia Skipwith
