EMERGENCY/DISASTER SIGNALS

2-2-2 Taps Repeated for 1 Minute

ASSEMBLE EMERGENCY/DISASTER CONTROL TEAM at specific locations designated in the Emergency/Disaster Plan Manual — Sounded Following a Fire Alarm Box Number.

20 Taps — Plant Wide Emergency/Disaster Signal

Employees assemble in main aisles or at assigned "Rally Site" with Group Captain. Roll call taken by name, dept. clock number. Remain at directed location for further instruction.

6 Taps—Evacuation Signal

Evacuate plant in calm and orderly manner through designated exits.

10 Taps—All Clear Signal

Resume normal operations.

OTHER SIGNALS

Police Whistle

One or more blows denote local emergency assembly in main aisles or department/area fire drill.

2-2 Auxiliary Police — Assembly
3-2 Fire Brigade — Assembly
3 Test on Fire Alarm System
4-2 On Village Alarm System means a fire at Remington Plant

NOTE: 1. When you pull a fire alarm box remain at alarm box until first fire brigade member arrives and direct him to fire location.
2. When plant-wide emergency/disaster signal (20 taps) is sounded, all contractor employees are to go to the security gate where they signed in.
