**EOP/Ex. 6**

Mike, I know you were just in DC, but could you meet early next week with Presidential Personnel? I've cc'd Jennifer Locetta, our PPO contact, to try to reach a convenient time for all.

Big thanks.

**Subject:** FW: Roundtable June 19

Alex, attached is an invite I sent to utilities to invite them to a roundtable to discuss next steps after the CPP. I would like to incorporate something like this into the July ECOS meeting if that makes sense. Let me know when would be convenient to talk about that. We can hold it wherever you're holding the ECOS meeting instead of at the EPA, of course, as well.

**Subject:** Roundtable June 19

All --

Thank you for your interest, participation, and your help in coordinating your trade association members' participation in the round table with US EPA Administrator Scott Pruitt to discuss a regulatory path forward for the utility sector. Having an open and robust dialogue with the regulated community is a foundational component of setting meaningful and balanced environmental standards. We look forward to learning more about your perspective as the utility sector not only powers our economic growth, but is also at the forefront of developing a more efficient and cleaner energy future.

The roundtable will start at 1 pm on June 19 at the US EPA headquarters in the Green Room in the Administrator's Suite. We will follow up with an official agenda in the coming days. We have received a number of RSVP's and appreciate that. Please confirm your attendance or the attendance of your trade association members by June 12. Should you have any questions, please email or call at (202) 564-6999.

Sincerely,

Ryan

Kathy, I'm sorry for the delay. What time in the day on June 19 might be most convenient for your CEO's?

Ryan Jackson
