Subject: FW: CAPA Symposium

Stu/Patsy,

I attended the CAPA (Chinese American Petroleum Association) annual symposium on 11/16. The main theme of the symposium was on the business and technology aspects of our industry. Health risk assessment was not the topic of interest and will not be included in the next year's Symposium. After a long talk with several program organizers, they agree to consider the possibility for me to give a presentation on Shanghai benzene study if the Chinese counterparts in China are also interested. All major petroleum companies in China will be attending the March 2003 symposium.

I did not see William Wu on Saturday and he did not registered for the symposium.

Regrads,
Shan

Subject: 2002 CAPA Business & Technology Symposium, 1st. Circulate

Dear CAPA members:

We are very excited to kick off the first CAPA Business & Technology Symposium ("the Symposium"), which will be held on Saturday, November 16th, 2002 at the Omni Hotel, located at the intersection of Katy Freeway and Eldridge in west Houston. All CAPA members are cordially invited to attend the symposium and are encouraged to submit and to present papers at the Symposium. The Symposium will be an excellent opportunity for CAPA members to: 1) learn the expert insights in some of the most important and challenging topics faced by the petroleum industry, 2) share best practices via case studies among various companies, and 3) network with one another.

As the Symposium will serve as a preparation/screening function for the 2003 Symposium to be held in March 2003 in Sanya, China, CAPA members who present their papers at the Symposium will have an opportunity to be selected as a speaker to the Symposium delegation to Sanya, Hainan Island in March 2003.

The Symposium will focus on the following four themes. Each theme will include 4-8 presentation sessions, at 20 minute each including Q&A. Two sessions will be presented concurrently in the morning and the afternoon.

- * General Session (Lakeview Room) - 8:30 AM to 9:00 AM

- * Key issues faced by the globalization of national oil companies (Woodbine Room) -- 9:00 AM to noon

- * Project execution, best practices, and management (Permian Room) -- 9:00 AM to noon

- * Strategy, risk, and portfolio management (Woodbine Room) -- 1:30 - 4:30 PM

- * New trends in technology development and their applications (Permian Room) -- 1:30 - 4:30 PM

As a way to facilitate and ensure success of the Symposium, CAPA has selected a coordinator for each of the four areas. The following is the contact information for each coordinator:

- * Key issues faced by the globalization of national oil companies -- Chet Wang,

wangq@chevrontexaco.com, 281-432-3452 (O)

* Project execution, best practices, and management - Jie Huang, jhuang1@wt.net, 281-654-2404 (O)

* Strategy, risk, and portfolio management -- Kathy Wu, wuk@bp.com, 281-366-5889 (O)

* New trends in technology development and their application -- T. K. Chao, aliaw@kmg.com, 281-618-6774 (O)
