## ANNUAL REPORT

Year Ended October 31, 1942

GLD30317

THE GLIDDEN COMPANY  
CLEVELAND, OHIO

December 30, 1942.

To the Shareholders of  
The Glidden Company:

The annual report of your Company for the fiscal year ended October 31, 1942, is submitted herewith. This report marks the twenty-fifth anniversary of the founding of The Glidden Company and some remarkable records have been established.

The net sales for the year amounted to \$81,705,731.65 as compared with sales of \$68,901,706.48 for the previous year. For the first six weeks of our present fiscal year our sales show an increase over the same period for last year of \$1,323,720.00.

The net profit for the year, after all charges except income and excess profits taxes, was \$4,119,300.13 as compared with \$4,165,389.92 for the preceding year. After income and excess profits taxes the final net profit was \$1,853,752.60 against \$3,010,389.92 for the preceding year. This is equal to \$1.70 per share on the outstanding Common stock of the Company. Income and excess profits taxes for the year amounted to \$2,292,000.00 against \$1,155,000.00 for the previous year.

It is interesting to note that all of the divisions of the Company — Paint, Chemical and Pigment, Metals Refining, Naval Stores, Vegetable Oil Processing and Food Products, showed profits.

Our new processes of manufacturing iron powder and cuprous oxide in the Metals Refining division are progressing satisfactorily and it is apparent that there is going to be a constantly increasing demand for these products.

In the Soya Bean division the development of soybean flour and soybean food products for the Government and for supplying under Lend-Lease has taxed our capacity. Plans have been worked out for increasing the production of soybean products and the future for this division seems to be very bright.

During the year two new hydrogen gas plants were completed; one in Chicago and one in Hillside, New Jersey, thus making two of our vegetable oil processing plants independent from outside sources of this essential material, of which we were unable to get a regular and adequate supply.

The world-wide shortage of butter and lard has given tremendous impetus to our production and sales of margarine and vegetable shortening. It is apparent that the Government is encouraging the use of these products in its efforts to make sure of an adequate supply of essential foods.

Our Paint and Varnish division is supplying large quantities of material for war and defense purposes, including some very large contracts on camouflage paints.

The Company's policy of using the last-in, first-out method of inventory pricing on certain raw materials and goods in process remains in effect. As of October 31, 1942, these inventories were carried on our books at a value of approximately \$1,600,000 under the replacement market values on that date, against approximately \$1,115,000 on October 31, 1941. It will be readily seen that the profit for the current year before income and excess profits taxes has been reduced to the extent of the approximate difference of \$485,000. This provides an excellent cushion against any future drop in commodity prices.

Just before the close of the fiscal year your Company purchased the properties formerly owned by Standard Cereals, Inc., at Indianapolis, Indiana, and has converted this plant to the production of soybean products and to the supplying of stock feeds. This addition makes a total of thirty-four integrated factories. Judging from commitments and from orders on our books, it is apparent that all of our plants will be operated at capacity in this new year.

Your Directors are pleased with the mutually satisfactory labor conditions existing throughout the organization and take pleasure in expressing their appreciation of the good work of all the executives and employees whose loyal efforts have contributed to our progress.

By order of the Board of Directors.

ADRIAN D. JOYCE,  
President.

See notes on following page.

Note A — Inventories of principal raw materials are stated at cost (FIFO method) which did not exceed replacement cost; other inventories are stated at the lower of cost (accumulated average) or replacement market.

Noted here — investment in California mining companies, while assets composed almost entirely of properties not being operated, are stated briefly at least than ours, which are very abundant on the basis of fundamental balance sheets, and are 70% more than the aggregate of our assets as shown by the books of those companies. James D. Fitzgerald, Inc. 282,517.13 in excess of provisions or under equity of the (Children Company applicable thereto) have been purchased by these companies from time of acquisition to October 31, 1942. The balance, however, the books for the past two years, and operations of the properties were suspended, have represented indirectly disposed in maintaining the properties. Certain of the properties are located in areas that will be flooded as a result of the construction of this dam in the State of California by the United States Government, and the Company has filed a claim for damages in excess of written-down amounts submitted thereon.

Note C.—Property, plant, and equipment are stated at cost or less, reduction having been made in 1932 to eliminate appreciations, and to provide for further write-downs.

[illegible]

**NOTE E** — Net assets of Canadian subsidiary included herein comprise net current assets, \$549,339.34 included as the Control Board fair of machinery, plant, and equipment and other assets, \$326,663.44, included as amounts shown by the books of character subsidiary. Consolidated earned surplus includes \$1,344,006.09 of surplus of the Canadian subsidiary.

| Balance November 1, 1941                                                       | \$ 8,942,329.15        |
| Add net profit for the fiscal year                                             | <u>1,857,752.60</u>    |
|                                                                                | \$10,799,081.75        |
| Deduct cash dividends paid:                                                    |                        |
| Convertible preferred — \$2.25 a share                                         | \$ 448,985.95          |
| Common — \$1.30 a share                                                        | <u>1,077,205.90</u>    |
| Balance October 31, 1942                                                       | 1,526,191.85           |
| Total, Surplus October 31, 1942                                                | <u>9,269,890.90</u>    |
|                                                                                | \$17,711,812.38        |

Note A—Depreciation claimed in the Company's federal income tax return for the year 1942 exceeded the amount included in this statement by \$71,682.91 due to depreciation claimed on costs written off or credited to revaluation reserve during 1932.

Note B.—Provision has not been made in the foregoing statement for losses of wholly owned, nonoperating California mining companies for the year, amounting to \$38,851.98 including provision for depreciation in the amount of \$28,026.08.

Note C—The net profit shown in the foregoing statement includes \$88,351.47 for the Canadian subsidiary, representing that subsidiary's net profit for the year after giving effect to adjustment of its net current assets to Control Board rate of exchange in effect as of October 31, 1942.

Note D.—In prior years certain items of account and expense, provision for contingencies, and losses on investments have been charged to capital surplus. If such items together with additional depreciation claimed for federal income tax purposes for the year 1932 to 1942 inclusive, had been charged against capital surplus instead of capital surplus, the respective amounts of such surplus accounts would be \$7,942,915.69 and \$9,768,898.89 at October 31, 1942.

Note E.—Certain sales under government contracts during the year are subject to the provisions for transportation contained in Section 403 of the Sixth Supplemental National Defense Appropriation Act, wherein the government is authorized to recover or retain any portion of sales found to represent excessive profits. No determination has been made as to the effect, if any, such transportation may have on the financial statements of the Company.

**UNION COMMERCIAL BUILDING**

Consolidated subsidiaries (Cali

We have examined the consolidated balance sheet of The Golden Company and consolidated subsidiaries (California mining companies) as of December 31, 1942, and the consolidated statements of the companies and subsidiaries including a detailed audit of the transactions, have examined in detail accounting records of the companies and other supporting evidence. By methods and to the extent we deemed appropriate, our examination was confined to the records of the companies and subsidiaries and to the documents and observations of procedures employed by the companies in ascertaining inventory quantities at locations selected by us.

In our opinion, the accompanying balance sheet and related statements of profit and loss and surplus, including the California mining companies, fairly present the financial position and results of operations for the fiscal year, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

ERNEST E. ERNST.
