REQUEST TO MONSANTO COMPANY
FOR SAMPLE QUANTITY OF PRODUCT
CONTAINING POLYCHLORINATED BIPHENYL ("PCB")

1. Name and address of organization making request:

VA Wadsworth Hospital Center

Research Service (691/151J)

Wilshire & Sawtelle Blvds
Los Angeles, California 90073

2. PCB product requested: Aroclor 1254

3. Quantity requested: 2 oz

4. Reason for request: Interested in liver induction properties of A. 1254

5. Use to which sample of PCB-containing product will be put:

I will use Aroclor 1254 to induce rat liver microsmal enzymes.

The rat liver preparation will be used in the Ames' mutagen test system.

6. Disposition to be made of any unused portion of sample:

Unused Aroclor 1254 will be turned over to Environmental Health and Safety Office for disposal.

MONS 096250

7. Names and brief description of educational background and job responsibility of person(s) who will be working with sample:

Dr. L. A. Wheeler. Ph.D. in Pharmacology. Responsible for setting up Ames mutagen test system in laboratory.

The undersigned organization represents that: the foregoing statements are true; it understands that if Monsanto elects to supply the requested sample of a PCB-containing product, Monsanto does so in reliance on the truth and accuracy of the foregoing statements; the person(s) designated by the undersigned organization who will be working with the sample is (are) aware that PCBs have been identified as a potential hazard to the environment and that regulations concerning their use or disposition are contemplated or may exist; that the label accompanying any sample will be read and cautions and instructions thereon will be observed; and that care is required in the disposition of PCB-containing products so as to avoid any adverse effect on human health and the environment.
