Date: January 10, 1990

Subject: S&T PVC FDA GMP

Confirming our previous conversations, we are scheduled for a meeting Thursday, January 25 from 9:00 - 10:00 in conference room B-06B to discuss S&T's role in assuring that Vista PVC maintains its status as FDA allowed. This will involve development of a Good Manufacturing Practices procedure similar to that developed by the Aberdeen Plant.

See you there. That conference room is in the SW corner of the eighth floor.

Joe
