REDACTED

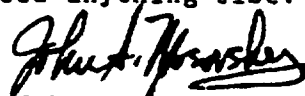

W. J. Schreiber:

The following represents a summary of my major accomplishments for 1985.

- Conducted 15 industrial hygiene surveys consisting of recognition, evaluation and control of potential health hazards. Highlighted surveys included AT&T Communications (Buffalo),
- Conducted audit of all Class IV laser labs at Holmdel and initiated actions for installing laser warning lights.
- Collected 97 air samples, 33 wipe samples and 12 bulk samples, and reported on their analyses.
- Learned asbestos identification and fiber counting techniques. Performed and reported on 10 such analyses.
- Visited Merrimack Valley facility four times in order to conduct sampling, perform surveys and recommend engineering controls or modifications. Coordinated waste disposal pick-up with outside vendor, assured compliance with Massachusetts Right-to-Know Law, and initiated EHEM&S review of new or modified MV construction.
- Completed standard on Safe Handling and use of
- Responded to 24 odor complaints.

For your information, I've attached a list of my 1986 goals.

Please let me know if you need anything else.
