 Mr. R. L. Morgan

Subject Vinyl Chloride Sampling
Central Region

RECEIVED

JUL 03 1975

R. N. WHEELER, JR.

Attached is a copy of the laboratory analysis of the samples you had taken at Memphis, Atlanta and Columbus warehouses:

873 -	Peoples Cartage -	Columbus, Ohio
305 -	A&I -	Memphis, Tenn.
336 -	Kimbro -	Atlanta, Georgia

All results were less than 0.10 ppm.

If you are going to furnish information to these warehouses, please put a "package" together including employees, specific locations, handling actions, and specific resin identification. Send it to me to get legal approval before releasing it to the warehouses.

CHEMIST-IN-A-CAN LABORATORY REPORT

RECEIVED
APR 18 1975Corresponding Individual Joe NovakOrganization Union CarbideAddress P. O. Box 670Bound Brook New JerseyTelephone No. ()

We have analyzed your Chemist-In-A-Can samples by flame ionization gas chromatography for the indicated components and have measured the following concentrations:

Sample I.D.	Date	Substances Checked For	Concentrations (PPM)	
			OSHA TLV	Found*
873-2	4-1-75	Vinyl Chloride Monomer	1.0 ± 0.5	0.1
873-1	3-27-75	"	"	"
305-2	3-31-75	"	"	"
305-1	3-26-75	"	"	"
336-2	3-31-75	"	"	"
336-1	3-26-75	"	"	"

*Limit of detection: 1 PPM
