The first few times you use this

EDGE INDEX

follow the "HOW TO USE" suggestions slowly and one step at a time. After you will be able to open easily and almost instantly to the chapter and subject you are seeking.

HOW TO USE

1. Place the four fingers of your left hand (palm up) between the front cover and the front page.
2. Place your left thumb near the middle of the open side of this insert.
3. Lift your left hand (about 3 inches) moving it to the right to bend the pages nearly double. From the 1 or 2 line symbol across to the letter or subject you seek. Move your eye across the page edges until you reach the horizontally corresponding symbol.
4. Open there.

There are two rows of symbols in the page edges. The first or left hand row identifies the subjects in the left hand row on this page. The second or right hand row identifies the subjects in the right hand column on this insert.

Page numbers are included if you wish to use them.

You will find it easier and quicker if you "fan" or "riffle" the last few pages with your left thumb.
