NIOSH Inquiry Regarding Vinylidene Chloride

F. C. Dehn

Attached is a letter to me from John F. Finklea, M.D., dated February 23, 1977, requesting information on vinylidene chloride. Your assistance in providing me with the necessary information to answer this letter will be appreciated. Items marked "X" are those which I would particularly appreciate your input. By a copy of this letter, I am asking Dr. Harold Lovejoy to comment on the items marked "O". To my knowledge, PPG has not been involved in epidemiological studies of vinylidene chloride exposed employees.
