PCB Shipping

G. L. Bratsch - 1740

W. R. Corey	B2SL
H. S. Bergen	B2SL
T. L. Gossage	B2SL
F. J. Holzapfel	B3NA
A. E. Leisy	1740
E. M. Potter	B2NK
R.C.E. Sprague	B2EG
C. Sigler	B2NH

~~B. B. Williams - 1740~~

I am writing this memo to confirm and add emphasis to shipping arrangements for PCB products discussed by Earl Potter, Art Leisy and Ben Williams.

Under no circumstances are products produced in your Department 246 to be shipped to any customer or other Monsanto location without approval from the COP group in St. Louis. COP will receive prior approval from appropriate representatives of the business group.

Carl Sigler has implemented a similar arrangement with our outlying warehouses.

Note! (Requests for samples of these products should be referred to me for evaluation and approval.

Strict adherence to this shipping control is critical to the success of the PCB curtailment program.
