I am sending you a link to our website and our magazine. The National Owner Operators Association (NOOA) represents over 44,000 members in the trucking industry.

It is important for you to understand that the enforcement of **49 CFR 371.3** without waivers is paramount to the survival of owner-operators and small carriers within the supply chain. This issue directly impacts the livelihood of countless independent truckers and the integrity of fair business practices in our industry.

Please take a moment to review this information, and feel free to contact NOOA if you have any questions.

Sincerely,
Michael Boston
President, National Owner Operators Association
